ENGLISH LANGUAGE STUDY COURSE
University of Surrey, Guildford, SRY, UK. Language: english. Duration: 1 month

Language skills

Italian	Mother tongue. Reading, writing, listening, speaking europass classification: proficient C2
English	Excellent. Reading, writing, listening, speaking europass classification: proficient C1
French	Good. Reading, writing, listening, speaking europass classification: independent B1
German	Elementary. Reading, writing, listening, speaking europass classification: basic A1

Information technology skills

Generic skills	Operating systems: excellent Electronic spreadsheets: excellent Internet skills: excellent Multimedia (sounds, pictures, videos): excellent	Word processing: excellent CAD skills: excellent Website creation: excellent Rendering: excellent
Specific skills	Software applications: - Microsoft Windows environment - Internet environment - Microsoft Office: Access, Excel, Outlook, PowerPoint, Publisher, Word - Adobe Creative Suite: Acrobat, After Effects, Audition, Bridge, Dreamweaver, Illustrator, InDesign, Photoshop, Premiere Pro - CAD 2D softwares: Autodesk AutoCAD, Bentley Microstation - CAD 3D softwares: McNeel Rhinoceros, Autodesk Maya, Autodesk 3ds Max - CAM softwares: Licom Systems Alphacam, Roboris Eureka - Rendering softwares: Chaos Group V-Ray, Nvidia Mental Ray - Autodesk SketchBook Pro - Corel CorelDRAW - Nero AG Nero Wave Editor - DRS Technologies Orca3D/RhinoMarine - FARO SCENE	

Additional information

Personal presentation

I deal with interior and exterior design, general arrangements, technical and working drawings and technical specifications editing and layout, 3D modeling and rendering, components design, furniture, colours, materials and finishings choice, weights assessment.

With multidisciplinary skills mainly in the design and the engineering environments, I can manage a preliminary design of a boat in full and coordinate a work team in developing it, starting from the initial concept to arrive to the final executive phase and considering all stylistic – architectural and technical – systems aspects.

During the years I gained experience on shipyard situations, objectives and developments especially elaborating the themes of “on field” production and service, standing in as means between office and shipyard figures and dealing with job planning, commission supervision and control, teams and human resources coordination, tasks management and verification, quality check, works progress and status, suppliers, goods, equipment, timing, quotes, itemized lists, jobs lists management.

I am also able to support and assist the client and him representatives from the first phases of presentation, choice and purchase, going through configuration and customization and keeping him up-to-date about the status of the order up to delivery and the phases following it. In the same way I can take part to press department, marketing and communication activities regarding advertising, presentation and public distribution and media coverage and of the relationships with them. In addition, having actively participated, both in cooperation and in some cases independently, to sale businesses as well to the most important fair events, I can include and develop in my services also the real sales phase.

Excellent hand drawing and prototyping skills. Communication and web design enthusiast (graphics, logo design, presentations, video making).

Soft skills

Independence	Communication
Self confidence and motivation	Problem solving and conflict resolution
Planning and organization	Team work
Accuracy and attention to details	Leadership
Continuous learning and growth	Self-criticism
Results achievement and perseverance	Self-promotion
Information and time management	Creativity
Resourcefulness and initiative	Decision making

Driving license

Full European driving license: A-B (car and motorbike availability)
